

Harsh Jha

Frontend Web Developer | BCA Student

Banga, Punjab, India | 9041749857 | hjha1289@gmail.com | linkedin.com/in/harshjha08

SUMMARY

Second-year BCA student at Lovely Professional University focused on frontend web development with HTML, CSS, JavaScript and React. Built and deployed a live website that took a private tutor's work online, designed a luxury e-commerce concept, and developed a responsive, SEO-ready personal portfolio in React. Builds on strong fundamentals in Java, C, C++ and Python. Seeking a frontend or web development internship; also available for freelance website projects for small businesses and creators.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Responsive Design, Semantic HTML, Basic SEO

Programming Languages: Java, C, C++, Python

Tools and Platforms: GitHub, Vercel, Formspree, Google Search Console

Professional: Communication, Public Relations, Social Responsibility

PROJECTS

The Concept Warrior – Online Tutor Platform

Live project

HTML, CSS, JavaScript, Formspree, GitHub, Vercel, Google Search Console

- Built a responsive website that takes a private tutor's work online, presenting the tutor and course information in a clear, structured layout.
- Integrated a Formspree contact form so students and parents can enquire directly.
- Managed the code on GitHub, deployed on Vercel, and used Google Search Console for search visibility.

Lumora – Luxury E-commerce Concept

Personal project

Frontend, UI Design, Responsive Design

- Designed and built a frontend concept for a store selling luxury products for women, focused on product presentation and a responsive shopping layout.
- Used the project to practise visual hierarchy, layout and clear product browsing for shoppers.

Personal Portfolio Website

Personal project

React, Vite, React Router, JavaScript, CSS

- Built a multi-page single-page application with routing, a data-driven project showcase and a credentials section, so new content is added without changing components.
- Implemented a mobile-first responsive layout, accessible navigation and keyboard focus states, and a contact form with validation and error handling.
- Added SEO groundwork: page titles, meta descriptions, Open Graph tags, structured data, robots.txt and sitemap.xml.

EDUCATION

Lovely Professional University

2025 – 2028 (Expected)

Bachelor of Computer Applications (BCA), Computer Applications; currently in second year

Govt. Sen. Sec. School Mahil Gaila, S.B.S. Nagar, Punjab
